## DAHLIAS FOR YOUR VICTORY GARDEN

Due to the shortage of labor we will discontinue growing some varieties. We are turning over a part of our acreage to the war effort by growing edibles. At this time we wish to thank all of our customers for the orders that they gave us during the past year. Some of our root stock is limited, so we advise you to send your order in early. If it is possible, we wish you would visit our gardens while in bloom. The gladioli will be in bloom from July to September and the dahlias from August to the time of frost.
